

# Edelstahl-Reiniger FL 1010

Cleaner for swimming pools made of stainless steel

- Highly concentrated
- Developed specifically for cleaning stainless steel
- Particularly suitable for persistent mineral deposits

## Product description

Stainless Steel Cleaner FL 1010 effortlessly removes lime and deposits from wintering as well as the day/night line. Also traces of rust from e.g. hair clips and discoloration from e.g. copper coins are dissolved.

## Application

The cleaner is applied over a wide area with an acid-proof sprayer or roller. The contact time for stainless steels is between 30 and 60 minutes. Do not process under heat.
