

Neutralisationslösung HD

Against acidic waste water

- Yield: 1 KG HD = 1 KG FL 1010
- Contact time: until pH value 6,5 - 9,5

Product description

Neutralisation Solution HD is an alkaline solution for neutralising Stainless Steel Cleaner FL 1010. One kilogram of Neutralisation Solution HD corresponds to one kilogram of cleaner.

Application

Neutralisation Solution HD is added to the draining water. Neutrality can be checked with a pH indicator paper.
